

RocDyn-4

The 4th International Conference on
Rock Dynamics and Applications
An ISRM Specialized Conference

17-19 August 2022 Xuzhou, China

INVITATION LETTER

Name: _____

Affiliate: _____

Dear _____,

On behalf of the Organizing Committee, it is our pleasure to invite you to attend the Fourth International Conference on Rock Dynamics and Applications (RocDyn-4) that will be held on 17-19 August 2022 in Xuzhou, China. This follows the successful series of RocDyn conferences since 2013 (RocDyn-1 in Switzerland, RocDyn-2 in China, RocDyn-3 in Norway).

Rock dynamics has wide applications in defense, civil engineering and infrastructure, energy and mining, and geo-hazards and the environment. It covers a wide scope of topics on the behavior of rock materials and rock mass under dynamic loads, ranging from characterization and the propagation of stress waves in geological media to dynamic response of rock and rock structures and dynamic rock support. We also look forward to the future development direction of rock dynamics and take this opportunity to explore new fields and new applications.

The registration fee is collected by Wuhan Chytesy Aconf Co., Ltd. (武汉企泰艾会科技有限公司.) The company will issue the invoice correspondently.

We are looking forward to welcoming you in beautiful Xuzhou in the golden autumn of 2022!

Yours sincerely

Jianchun LI (China)
RocDyn-4 Chair

Xiaozhao LI (China)
RocDyn-4 Co-Chair
